## Twin Camera 4K Video — Twice The Fun, 4 Times the Beauty

Now there's a camera with a picture-perfect memory. It'll capture your family's most precious moments, and keep them sharp and vivid with 4K resolution for years to come. And it's a Twin Camera, so it can put your smiling face right into the picture as well, instead of hiding you behind the scene!

Preserve your memories  
in all their beauty with 4K definition

4K Video Recording

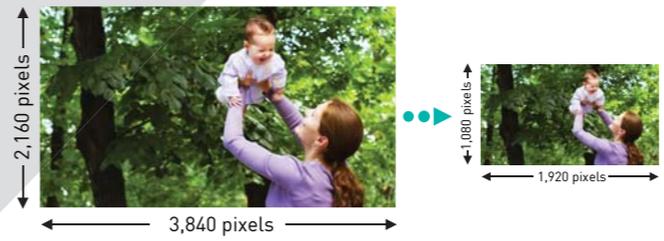

WX970 VX870

With four times the resolution of Full-HD, the WX970 and VX870 Series record in 4K [3,840 x 2,160] formats. This delivers true-to-life images for a wide variety of shooting situations, in extremely high detail.

More Details than Full-HD

WX970 VX870

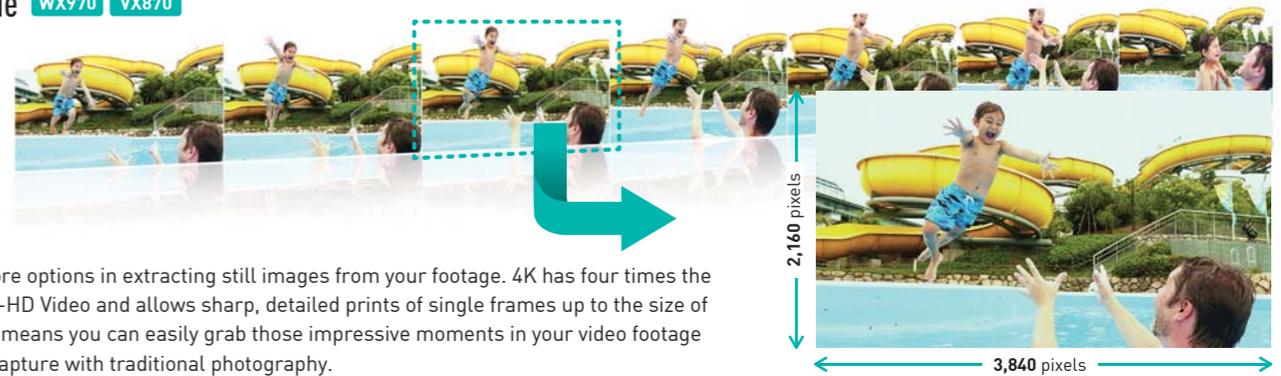

4K delivers a far more intense viewing experience than you have seen before. Its native resolution of 3,840 x 2,160 pixels is four times larger than Full-HD, resulting in a much higher level of detail. Even if you export your footage filmed in 4K to Full-HD, the video files will have even better definition and crisper details than those filmed in Full-HD.

Note: While footage recorded in Full-HD on the WX970 and VX870 Series is 60 fps/50 fps, files down-converted from 4K to Full-HD are 30 fps/25 fps.

4K Photo Mode

WX970 VX870

4K also offers more options in extracting still images from your footage. 4K has four times the resolution of Full-HD Video and allows sharp, detailed prints of single frames up to the size of A3. Filming in 4K means you can easily grab those impressive moments in your video footage that are hard to capture with traditional photography.

4K High-Precision AF

WX970 VX870

High-Speed, High-Precision AF Technology in 4K

An image sensor with 60-fps/50-fps readout and a precise focus lens drive for 4K images enable superior focusing speed, stability and tracking performance. Complex 4K focusing is also automated for comfortable framing of stunning 4K shots.

# Premium Picture Quality

## Leica Dicomar Lens

This high-performance lens has passed the stringent inspection standards of Leica Camera AG for aspects such as resolution and contrast. In addition to rendering sharp, crisp images, it produces the distinctive nuances and subtle shading that Leica lenses are renowned for.

## 1/2.3" BSI Sensor

Increasing the readout speed has made it possible to handle large-volume 4K data. This suppresses the rolling shutter distortion that often occurs when shooting moving subjects.

## Crystal Engine 4K

This high-speed LSI processes the massive volume of 4K data quickly and accurately. A new noise reduction system achieves clear images with minimal noise even in darkness.

## 20x Optical Zoom with 4-Drive Lens System

By driving each of four lens groups separately, the drive ranges are reduced, resulting in high image quality, high-powered zooming, and a compact camera body. This gives the WX970/VX870 Series its compact size even with a 20x optical zoom and 4K definition.

With 1 zoom lens group

Professional Video Camera

With 4 moving lens groups

WX970/VX870/V770

## Reduced Rolling Shutter Distortion

The Rolling Shutter Distortion that is caused by the line-by-line readout of the MOS image sensor is suppressed by the combination of a MOS sensor with high-speed readout and an engine with high-speed signal processing. This delivers natural images with minimal distortion, even for fast-moving subjects.

Noticeable distortion

Natural-looking image with minimal distortion

## Level Shot Function

The Level Shot function automatically detects and corrects the tilting of captured images. The setting can be adjusted to one of three levels (OFF, Normal, Strong\*) depending on the shooting conditions.

\* Except 4K mode

Level Shot Function OFF:

Images are often tilted without realizing it.

Level Shot Function ON:

An acceleration sensor and a gyrosensor detect the tilt, and automatically level the scene.

## 5-Axis HYBRID O.I.S. +

HYBRID O.I.S. + uses five-axis correction to thoroughly suppress blurring all the way from wide-angle to powerful zoom shots. This lets you capture crisp, clear images, without blurring, in almost every shooting situation.

O.I.S. OFF

O.I.S. ON

## 5-Axis Hand-Shake Detection

Roll rotation

For shooting while walking

Blurring in the roll direction from shooting while walking is suppressed to produce truly beautiful images.

Wrist movements

Across the entire shooting range

Detected blurring caused by vertical or horizontal wrist movements is corrected using a lens in the optical system.

Arm movements

For zooming

Areas of the sensor that are not used for zooming are electronically controlled to compensate for hand-shake.

# The Twin Camera Delivers Twice the Fun

**Sub Camera**

Rotating  
 270°

## TWIN CAMERA™

### Twin Camera Function **WX970 W570**

The WX970/W570 Series include a pan/tilt and retractable sub camera. Two cameras let you easily take shots from two different angles simultaneously. For example, you can catch a shot of the family at the side and a selfie, or both a tele and wide-angle shot from the front. Vertical ±20° rotation and a 2x zoom\* function for the sub camera have been included for greater shooting versatility.

\* WX970 Series only (except 4K mode)

Main Scene and Yourself

Tele and Wide

Main Scene and Person Aside

### Narration Mode **WX970 W570**

This mode shuts out surrounding sounds to give greater emphasis to the voice of the person shooting. When taking selfies with the Twin Camera, it captures clearer narrations.

### Wide Variation of Sub Windows **WX970 W570**

The sub camera image is recorded into a sub window, and its display position can be changed by touch operation while shooting. The sub window size can be changed to three types, including a 1:1 type that is ideal for taking selfies. You can also select the frame color, apply a shadow effect, and use other sub window variations.

Note: There is no sub window frame when shooting in 4K.

#### Move by touch operation

#### Change sub window frame

4 Colors (Gray/Green/Pink/Orange)

### Backup for Twin Camera\* **WX970 VX870 V770 W570**

A Picture in Picture image and a main camera image without a sub window are recorded simultaneously, so either image can be played separately later. This assures you of getting a good video even if the subject in the sub window should move out of the frame and spoil the Picture in Picture shot.

\* AVCHD 1080/60i(50i) only

Note: This function is also available with Wireless Twin Camera function.

### Select from 3 sub window sizes

16:9 Large/Small size

1:1 for Selfie

Turn Your Smartphone into a Sub Camera

# Wireless TWIN CAMERA

Subjects in separate locations can be captured simultaneously

Subjects in separate locations can both be captured by the camcorder and smartphone and put into one picture.

Sub Camera

Main Camera

Image App  
UNWIRE YOUR CREATIVITY

Wireless Twin Camera **WX970** **VX870** **V770** **W570**

Using your smartphone with Wi-Fi operation as a sub camera, you can shoot from two angles at the same time. Since you are shooting with different cameras, you can use one at a distance, or at any angle you choose. This gives you a wide variety of Picture in Picture images.

- This function uses Wi-Fi signals. The distance that Wi-Fi signals will reach is 5 to 10 meters when there are no obstacles or other signals present. However, this should be considered only as a guideline because the distance may vary greatly depending on the devices being used and the environmental conditions.
- For Android devices, those with four or more CPU cores (Quad-Core CPU or higher) are recommended. For iOS devices, the newest models are recommended.

Sub Camera

Main Camera

P in P  
Composite!

Same object from different angle

By shooting a practice scene from different angles with the camcorder and a smartphone, you can check your athletic form in greater detail.

A smartphone-captured image, and the shooting scene

A close-up of the squirrel captured by a smartphone, and the family enjoying shooting opportunity are taken at the same time.

Clear shots with excellent detail  
in both bright and dark areas

Combined

### HDR (High Dynamic Range) Movie WX970 VX870 V770

By combining two images taken with different exposure times, the HDR Movie function suppresses blown highlights and blocked shadows for crisper, clearer videos. This is the world's first\* consumer camcorder to feature the HDR Movie function. Even in difficult shooting situations, such as backlighting, you can easily capture natural videos with excellent gradation.

Note: This function is not available with 4K mode.  
\*In a consumer Full-HD video camera. As of January 5th, 2015.

HDR OFF

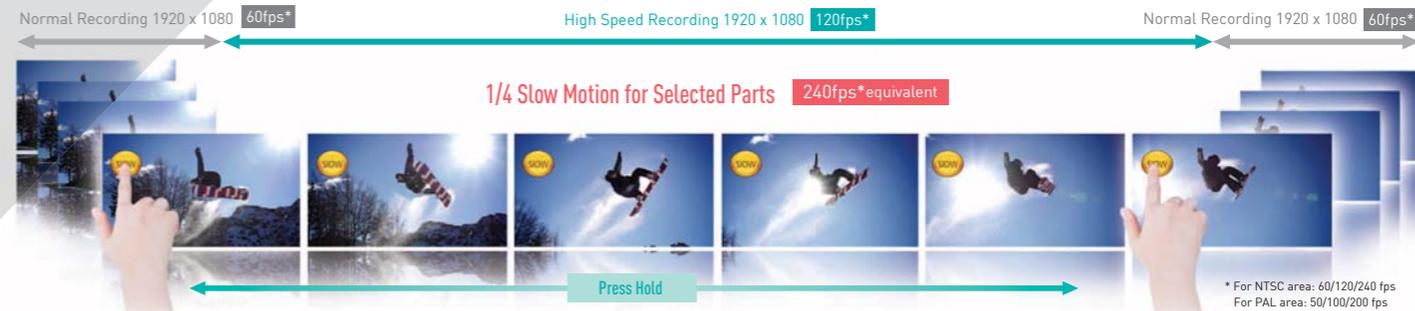

HDR ON

HDR OFF

HDR ON

### Full-HD Slow Motion Video WX970 VX870 V770

\* For NTSC area: 60/120/240 fps  
For PAL area: 50/100/200 fps

Effective for scenes like these

Sports

Pet

Hobby

Records Full-HD (1920 x 1080) at 120 fps.\* And the Intelligent Frame Creation of the Crystal Engine interpolates to an equivalent of 240 fps,\* for smooth slow motion. Switches to slow motion while you touch the icon on the LCD screen during shooting.

Note: You can switch up to three times during one shooting.

### Night Mode (IR) WX970 VX870

Infrared rays and IR-LED lighting let you shoot in the dark (0 lux). You can capture nighttime images without waking the baby up.

Night Mode [IR] OFF

Night Mode [IR] ON

### 50Mbps MP4 WX970 VX870 V770

In addition to the AVCHD format, Full-HD (1,920 x 1,080) 60p (50p) videos can be recorded in the 50-Mbps MP4 format. The MP4 format is suitable for editing videos on a computer.

\* Playback on a VIERA TV and Blu-ray disc player cannot be guaranteed for data recorded in MP4 50Mbps.

Image App  
UNWIRE YOUR CREATIVITY

Baby Monitor

One-touch Connection

Remote Shooting

Real Time Broadcasting

Remote View

WX970 VX870 V770 W570 V270

## One-touch Connection

Without bothersome initial settings, NFC lets you connect a smartphone or tablet to the camcorder in one touch.

### Easy Connection with QR Code

QR codes are also provided for use by those who don't have an NFC phone.

## Remote Shooting

The "Panasonic Image App" lets you use a smartphone or tablet as a live-view remote controller and operate the camcorder from a distance.

## Remote View

Videos and photos inside the camera can be viewed on a smartphone or tablet, and uploaded to an SNS site.

## Panasonic Image App

Panasonic provides a free, dedicated application software called "Panasonic Image App" for iOS/Android smartphones and tablets.

## Highlight Playback and Easy Share

You can enjoy Highlight Playback with a smartphone or tablet right after shooting. Favorite scenes can be shared on SNS with simple drag and drop operation.

## Highlight Photo Collage

Create a highlight photo collage with the best scenes picked out automatically from video.

## Home Monitoring\*

When you are away from home, you can monitor and record there with high-quality live video, and speak to your family or pets using your smartphone or tablet.

## Real Time Broadcasting\*

You can live-stream events on USTREAM as they are being recorded in Full-HD resolution.

\* Simultaneous recording is not possible with the W570/V270.

## Baby Monitor\*

You can check on the baby with a smartphone or tablet in another room. The Push Notification function alerts the smartphone or tablet if a voice sensor detects the baby waking up and crying.

## Auto Transfer (Wireless PC Copy)

Images are transferred from your camcorder to a computer via the wireless access point at home.

## Wireless TV Playback\*

An access point at home can be used to transfer data wirelessly to the TV or a tablet in the living room, or other rooms in the house. You can play images on the large-screen display.

- WX970/VX870/N770/W570: AVCHD and MP4 720p only.
- V270: AVCHD HG/HE and MP4 720p only.

\* A wireless access point (router) is required.

# Let Advanced Technologies Preserve Your Precious Memories

## 28mm Wide-Angle\* W570 V270

The 28mm wide-angle\* fits more people and more of the background into the frame. This is especially handy when you want to take a group photo in a small room. It fits your subjects in even when you shoot from up close, and makes it possible to pick up even small sounds with the mic.

\* 35mm camera equivalent

35mm Lens

28mm Wide-Angle

## Intelligent 90x Zoom/Optical 50x Zoom W570 V270

When using Intelligent 90x Zoom, Intelligent Resolution technology lets you shoot at high zoom rates while preserving the image resolution. You get sharp images of highly detailed objects – without the blurry edges.

\* 4K

	WX970 WX970M	VX870 VX870M	V770 V770M V760	W570 W570M	V270 V260	V160	X920 X920M X910

## Wind Shield Zoom Microphone WX970 VX870 V770

A special damping material is provided in the space between the mic and the mic net to suppress wind noise for clear recording always.

### High-Quality Audio Parts

Aluminum electrolytic capacitors for audio use

High-S/N mics

Four 6mm-diameter, high-S/N mics and aluminum electrolytic capacitors reduce sound distortion and increase clarity.

### Sound Scene Select

Record sound "just as you hear it", by changing frequency characteristics according to the shooting scene.

Speech

Festival

Music

Nature

## Multi Manual Dial WX970 VX870 V770

By pushing or rotating the manual dial, you can easily adjust allocated functions, like focusing and changing the iris.

### Adjustable Items

- Focus
- White Balance Mode
- Shutter Speed
- Iris
- Sharpness
- Color Saturation
- White Balance Fine
- Exposure

## Baby Calendar WX970 VX870 V770 W570 V270

Simply set the baby's birth date and name to display thumbnail images of scenes arranged by month around that date. Easy to find the scenes you want.

# Creative and Handy Functions Give You Greater Shooting Enjoyment

## Creative Control All Models

Four filter effects make it possible to shoot impressive video recordings that are matched to the shooting situation.

### Miniature Effect

This effect defocuses peripheral areas while keeping the focus point sharp and clear making life-size subjects look like a diorama.

### 8mm Movie

You can record motion pictures with a faded retro effect.

### Silent Movie

You can record motion pictures that are similar to black-and-white silent films by lowering the amount of incoming light.

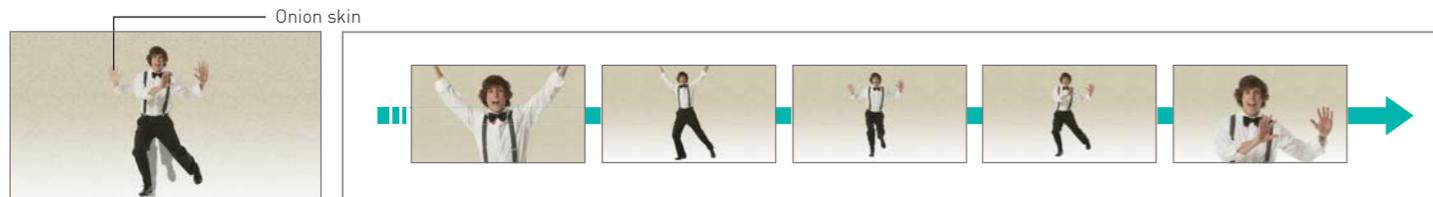

### Time Lapse Recording

A scene that moves slowly for a long period of time is recorded frame by frame with an interval, as a short time motion picture.

## Stop Motion Animation Assist WX970 VX870 V770 W570

By moving the subject slightly and shooting still images, you can create a unique animated slideshow. Previously taken photos are displayed with an onion skin effect for easy layering.

## iA (Intelligent Auto) All Models

This powerful function senses the shooting conditions and automatically makes the settings and activates functions that deliver optimal results.

## iA Plus— Easy to customize settings without releasing iA mode

WX970 VX870 V770 W570 V270

The iA Plus mode enables you to adjust exposure compensation and white balance by just pressing the button on the LCD.

### Brightness Control

You can adjust the exposure compensation accurately and easily.

### Color Control

You can adjust the white balance from warm red to cool blue.

## O.I.S. (Optical Image Stabilizer) Lock

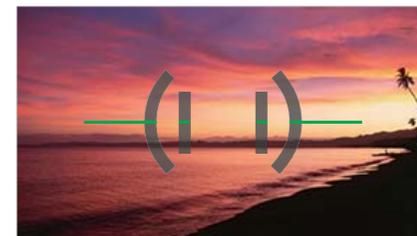

WX970 VX870 V770 W570 V270

The image-stabilizing effect is increased by pressing and holding the O.I.S. Lock indication on the LCD screen, which maximizes the blur detection sensitivity.

## Level Gauge

WX970 VX870 V770 W570 V270

Level Gauge visibly assists you to shoot straight with horizontal and vertical gauges. It helps to correct even slight tilting.

## Zoom Mic

WX970 VX870 V770 W570 V270

The Zoom Mic function links the microphones to the lens action. When you zoom in on a subject, the microphones focus on the sound in that same direction.

## Wind Noise Canceller

WX970 VX870 V770 W570

Automatically eliminates wind sounds picked up by the built-in mic to provide clear recordings of the subject's voice.

## Easy Saving

**WX970 VX870 V770 W570 V270**

Image data from many hours of shooting can easily be backed up in an external portable HDD at the shooting location.

USB bus power supply

\* An AC adaptor connection is required for the camcorder.

## Easy Connecting, Easy Viewing

**All Models**

### VIERA Link

Connect your camcorder to a VIERA\* or compatible Blu-ray Disc™ Player\* via an HDMI mini cable or an HDMI micro cable, and you can control both units in synchronized operation with a single remote control.

### Playback with SD Card

Simply slip the SD card from your camcorder into the SD card slot on your VIERA TV\* or Blu-ray Disc™ Player,\* and you're ready to view recorded Full-HD moving images.

\* The models availability varies depending on countries and regions. JPEG format still images can be viewed with other SD Memory Card Slot-equipped models.

\* Playback on a VIERA TV and Blu-ray disc player cannot be guaranteed for data recorded in MP4 50Mbps and 4K/30p.

## Eye-Fi Compatible

**All Models**

By using the Eye-Fi™ card, you can save files recorded on the card on a PC, or upload them to SNS via a wireless network. You can also directly transport the data to your device (smartphone, tablet etc.) without connecting another access point.

• The functions of the Eye-Fi™ card (including wireless transmission) are not guaranteed to work on this product. In the case of a malfunction of the card, please contact the card manufacturer.

• To use the Eye-Fi™ card, permission from the national or regional government is required. Do not use it if you have not obtained permission. If you are unsure as to whether use is permitted, please check with the card manufacturer.

• Install the software supplied with the Eye-Fi™ card in advance on your PC, and configure the Eye-Fi™ settings. (For setting methods, etc., please read the card operating instructions or consult the card manufacturer.)

## HD Writer AE 5.2/LE 3.0\*

**All Models**

WX970/VX870/V770: AE 5.2  
W570/V270/V160: LE 3.0

Downloadable HD Writer software makes it easy to play or edit videos on your PC and have more fun when the shooting's done.

\* For Windows OS

### Importing Data

When the camcorder is connected to a PC, the software automatically starts up. Importing data takes only a few clicks of the mouse.

### Video Retouch

This function lets you decorate images with text, graphics, or stamp pens. By using a gamelike approach to add an extra editing touch to finished images, they become even more attractive and enjoyable.

### Editing

It's easy to add titles, rearrange scenes, provide transition effects, and edit images in single frame units.

## 3MOS SYSTEM PRO 3MOS System Pro

The 3MOS System Pro is comprised of the F1.5 LEICA Dicomar Lens, the 3MOS BSI Sensor, and Crystal Engine Pro II.

	HC-X920	HC-X920M	HC-X910
Wi-Fi	○	○	—
SD Card	○	○	○
Built-in Memory	—	32GB	—

Recording Format: AVCHD 3D / Progressive, iFrame

Lens: LEICA DICOMAR, NANO SURFACE COATING, Premium Lens

Sensor: BSI sensor, 3MOS

Other features: 29mm WIDE, 25x, 12x, WiFi CERTIFIED [Except X910], 5-Axis HYBRID O.I.S.+, iA+, Creative Control, 3D FULL HD

# X1000 4K Ultra High Definition Video Recording with Mobility

- 1 4K 60p/50p Video Recording with Mobility
- 2 High-Bit-Rate Recording for Both 4K and Full-HD
- 3 Great Functions for Professional Needs

Recording Format: AVCHD Progressive, MP4 MOV

Lens: LEICA DICOMAR

Sensor: BSI sensor

Other features: CRYSTAL ENGINE 4K, 30mm, 20x, WiFi CERTIFIED, 5-Axis HYBRID O.I.S.+, iA+, \* Full-HD

Let the camera operate itself!

Compatible with Remote Pan Tilt Cradle **WX970** **VX870** **V770** **W570** **V270**

Remote operation is possible with a smartphone or tablet

Operate directly from the camcorder, or use remote control with the Panasonic Image App.

Pan  $\pm 180^\circ$ \*/Tilt  $\pm 15^\circ$ \*

The unit can also be mounted on a tripod.

\* Approximately

### Party Scene

The motion sensor and face recognition function will capture all of your guests, and framing is automatically adjusted.

Note: A USB cable (supplied with the camcorder) is required to connect the VW-CTR1 and the camcorder.

### Moving Object

The motion sensor will find and follow your pet. If the pet stops moving for a while, the camera will zoom in. And if the pet is not found, the camera will search for it.

### Preset Position

You can register certain angles in advance to change the shooting angle quickly from your smartphone.

\* Except V270

### Remote Shooting

The Wi-Fi function can also be connected to control panning, tilting, and zooming from outside the house.

## 1 Light and Truly Wearable

Separate Units for Comfortable Control/Built-in LCD Is Easy to See

## 2 World's First\* 4K30p Wearable Camera

Lens, Sensor and Engine are Renewed for 4K30p Recording/Level Shot/Image Stabilizer

\* In a consumer 4K30p(25p) wearable camera. As of March 24, 2014.

## 3 Superb Usability, Shoot and Share Instantly

NFC/Create Highlights and Easy Share

## Light and Truly Wearable

### Separate Units for Comfortable Control

This separate-type wearable camera divides the Lens Unit and Main Unit, so you enjoy reliable shooting while viewing the control buttons and LCD. The Lens Unit weighs only 31g, so it does not cause fatigue when worn on the head. Compared to the Full-HD HX-A100 model, the Lens Unit has been increased only 1g, and the Main Unit has been increased only 11g, by downsizing advanced functions like 4K recording and the LCD monitor. Even kids can wear it. Everyone can capture videos with hands-free or handheld operation.

Main Unit  
128g

Lens Unit  
31g

### For wearer comfort, the camera comes with Head Mount and Armband Case

The Head Mount is supported at three points. It is so easy to wear that while shooting you may even forget that it's there. Meanwhile, it's easy to put in and take out the main unit from the flip case on the armband.

Head Mount

Armband Case

### Built-in 1.5 inch Color LCD Display

The A500 comes with an LCD on the Main Unit. As well as enabling you to check your movies\* on location, it also makes it easy to change various settings. Operations are performed using the Joystick beneath the LCD. With visual feedback from the LCD, control soon becomes intuitive and fumble-free.

\* Playback of recorded data using only the Main Unit is limited to the first few seconds (without sound) of the most recent file. A Wi-Fi connected smartphone is required to view all of the content.

### Easy Operation

Setting for resolution, Wi-Fi® and others using the Joystick can be done for fast and easy operation. Just jog the on-screen cursor to the desired menu item.

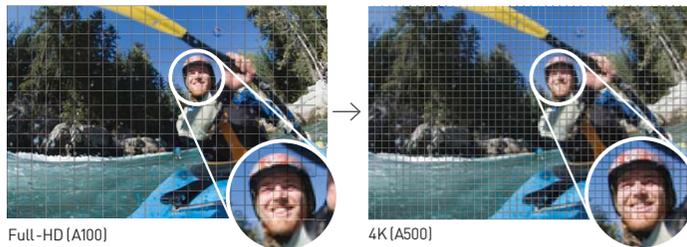

### Tough, waterproof and dustproof

The A500 is designed to enable underwater recording for 30 minutes at 3 meters. Dustproofing also allows you to actively use the camera at the beach and other places.

# World's First 4K Wearable Recording

## 4K Quality

The A500 has 4K video capability. New sensor and imaging engine technology make it easy to shoot finer and more beautiful movies.

## 4K 30 Frames per Second Recording

The A500 can record 4K video at 30(25\*) frames per second. Now, even in active sports, without dropping a frame, you can shoot with this wearable camera and later enjoy smooth-motion video.

\*For PAL model.

## Tilt Correction and Image Stabilization

### Tilt correction

Movement of the head is sensed and the image is automatically straightened to the horizontal.

\*When shooting at Full-HD in standard resolution.

### Image stabilization

Reduces image blurring. Reduced blur from camera motion means you can enjoy your video on large screen TVs.

\*When shooting at Full-HD in standard resolution.

## Slow Motion Video Recording

Slow motion function. You can video fast action and play back in slow motion to better see the actual movements.

Mode (NTSC)	Mode (PAL)	Resolution
60 fps	50 fps	1920 × 1080 pixel
120 fps	100 fps	1280 × 720 pixel
240 fps	200 fps	848 × 480 pixel

# Superb Usability, Shoot and Share Instantly

## One-touch Connection

If you have a smartphone or tablet with NFC (near field communication) capabilities, just install and run our app. Without bothersome initial settings, you can connect your smart device to A500 in one-touch.

## Built-in Wi-Fi®

As well as movie sharing, the app provides remote recording, sequence trimming, and other functions.

## Create Highlights and Easy Share with Image App

You can instantly let your friends see the movies you have taken.

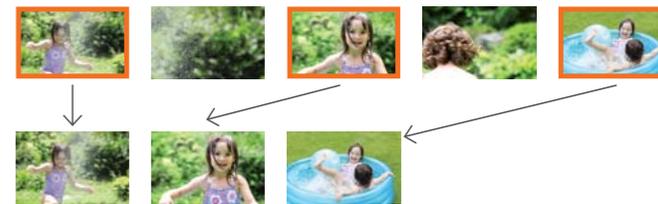

## Real-time Broadcasting

Memorable scenes are distributed as videos on the Internet while recording. Live relays can be seen anywhere in the world.

## Create Highlights

Only the highlighted scenes can be easily edited in one clip with automatic selection.

## Micro SDHC Card

You can record to a micro SD card with speed class 10.

### Gold Micro

32GB: RP-SMGA32GAK / 16GB: RP-SMGA16GAK  
8GB: RP-SMGA08GAK

\*1 With a non-compliant UHS-I device, high speed mode [Read: up to 23MB/s, Write: up to 12MB/s] or default mode is implemented.

Clip Mount / VW-CLA100

Multi Case / VW-HLA500

Suction Cup Mount / VW-SCA100

Bundled with  
HX-A500

Head Mount / VW-HMA100 [Headband]

This ergonomically designed head mount is comfortable to wear even during long video sessions. \*Also sold separately.

Multi Mount / VW-MKA100

Tripod Mount / VW-CTA100

Wind Jammer / VW-WJA100

Multi Belt / VW-MBA100

## Accessories

Clip Mount / VW-CLA100

The lens unit can be easily mounted to a cap or other object.

Multi Belt / VW-MBA100

Neatly holds the main unit and cable. In different situations, you can wear it around the waist, across your body from the shoulder, or any way you like.

Multi Case / VW-HLA500

The case lets you keep the camera, cable, and main unit all together.

Multi Mount / VW-MKA100

You will find it useful in all kinds of outdoor situations. For example, you can mount the lens unit on goggles or a backpack strap.

Tripod Mount / VW-CTA100

The tripod mount will hold the lens unit on screw mounting platforms, such as tripods. Ideal for fixed-point shooting.

Video Camera Mount (For Handlebar) / RP-CMC10

Mounting the lens unit on your handlebars is a great way to capture cycle rides.

\*Used together with Tripod Mount VW-CTA100, which holds the lens unit.

Suction Cup Mount / VW-SCA100

Helps when you want to fix the lens unit to a boat or other flat surface.

\*Used together with Tripod Mount VW-CTA100, which holds the lens unit.

Wind Jammer / VW-WJA100

By shielding the microphone, you can get a clear sound track when shooting on a bicycle, motorbike, or in windy conditions.

## 4K Ultra HD Camcorder Specifications (NTSC / PAL)

SENSOR SECTION		HC-X1000
Image Sensor		1/2.3-type BSI MOS Sensor (For Europe) 1/2.3" BSI MOS Sensor (For North America / Asia)
Total Pixels		18.91 megapixels
Effective Pixels		8.85 megapixels [17:9], 8.29 megapixels [16:9]
LENS SECTION		
F Value		F1.8 (WIDE) / F3.6 (TELE)
Optical Zoom		20x
Focal Length		4.08 — 81.6 mm
35 mm Film Camera Equivalent (Motion Image/Still Image)		29.5 — 600 mm [17:9], 30.8 — 626 mm [16:9]
Filter Diameter		49 mm
Lens Brand		Leica Dicomar Lens
CAMERA SECTION		
Standard Illumination		1400 lx
Minimum Illumination		4 lx (Super Gain 30dB, Shutter 1/30, 1/25)
Focus		Auto / Manual
Zoom		20x
Intelligent Zoom OFF		40x (1920 x 1080 or lower)
Intelligent Zoom ON		2x / 5x / 10x
Digital Zoom		
White Balance		Auto / 3200K / 5600K / VAR [2400K — 9900K] / Ach Fixed / Bch Fixed
Image Stabilizer		C4K/4K: POWER O.I.S. Full-HD or lower: 5-axis HYBRID O.I.S.+ with Active Mode
RECORDING SECTION		
Recording Media		SD/SDHC/SDXC Memory Card
Recording Format		MOV (LPCM) / MP4 (LPCM) / MP4 AVCHD: AVCHD Progressive MPEG-4 AVC/H.264 MOV: LPCM (2ch), MP4: LPCM / AAC (2ch) AVCHD: Dolby Digital (2ch)
Video Compression Method		MPEG-4 AVC/H.264
Audio Compression Method		MOV: LPCM (2ch), MP4: LPCM / AAC (2ch) AVCHD: Dolby Digital (2ch)
Recording/Playback Mode		MP4 4096x2160 24p 100M: Average 100Mbps (VBR), LPCM 3840x2160 60p/50p 150M: Average 150Mbps (VBR), LPCM 3840x2160 30p/25p 100M: Average 100Mbps (VBR), LPCM or AAC 3840x2160 24p 100M: Average 100Mbps (VBR), LPCM 1920x1080 60p/50p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 60p/50p 100M: Average 100Mbps (VBR), LPCM 1920x1080 60p/50p 50M: Average 50Mbps (VBR), LPCM or AAC 1920x1080 30p/25p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 30p/25p 50M: Average 50Mbps (VBR), LPCM 1920x1080 24p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 24p 50M: Average 50Mbps (VBR), LPCM
MOV		1920x1080 60p/50p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 60p/50p 100M: Average 100Mbps (VBR), LPCM 1920x1080 60p/50p 50M: Average 50Mbps (VBR), LPCM 1920x1080 30p/25p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 30p/25p 50M: Average 50Mbps (VBR), LPCM 1920x1080 24p 200M (ALL-Intra): Average 200Mbps (VBR), LPCM 1920x1080 24p 50M: Average 50Mbps (VBR), LPCM
AVCHD		PS 1080 60p/50p: 1920x1080, Max. 28Mbps (VBR) PH 1080 60i/50i: 1920x1080, Max. 24Mbps (VBR) HA 1080 60i/50i: 1920x1080, Average 17Mbps (VBR) HE 1080 60i/50i: 1440x1080, Average 5Mbps (VBR) PM 720 60p/50p: 1280x720, Average 8Mbps (VBR)

System Frequency	59.94 Hz / 50.00 Hz
Thumbnail Display	20 thumbnails/page, 9 thumbnails/page, 1 thumbnail/page
Microphone	Stereo Microphone
Speaker	Dynamic type
STILL IMAGE SECTION	
Recording Format	JPEG (DCF/Exif2.2)
Recording Image Size	[17:9] 8.8 megapixels (4,096 x 2,160) [16:9] 8.3 megapixels (3,840 x 2,160), 2.1 megapixels (1,920 x 1,080)
GENERAL SECTION	
Power Supply	7.2V (Battery) / 12V (AC Adaptor)
Power Consumption	15.4W (LCD Monitor) / 14.3W (Viewfinder)
Dimensions (W x H x D)	Approx. 160 x 170 x 315 mm (6.3 x 6.69 x 12.4 inch)
Weight (without battery and SD card)	Approx. 1550g (3.42 lb)
LCD Monitor (Wide)	8.8 cm (3.5") LCD monitor (1,152,000 dots) (For Europe) 3.5" LCD monitor (1,152,000 dots) (For North America / Asia) 1.15 cm (0.45") EVF (1,226,880 dots) (For Europe) 0.45" EVF (1,226,880 dots) (For North America / Asia)
View Finder (Wide)	0.45" EVF (1,226,880 dots) (For North America / Asia)
Manual Ring	Focus / Zoom / Iris
Interface	AV, HDMI (Type A), XLR (3 pins) x 2 (Line: 0dBu/+4dBu, Mic: -40dBu/-50dBu/-60dBu), Headphone (stereo mini), USB (Micro-B: USB 3.0 SuperSpeed, Type A: USB 3.0 SuperSpeed, Host for USB HDD*), Bus Power Supply), Camera Remote (2.5mm super mini jack x 1 [200M S/S], 3.5mm mini jack x 1 [FOCUS/IRIS])
Accessory Shoe	Yes
Standard Accessory	AC Adaptor, AC Cable (2 Cables), Rechargeable Battery Pack (5,800mAh), Battery Charger, High Speed HDMI Cable, USB Cable, Microphone Holder, Microphone Holder Screws (2 Screws), Input Terminal Cap (2 Caps), Shoulder Strap, Eye Cap, HD Writer XE2.0 (Download)
Wi-Fi	
Standard Frequency	IEEE 802.11b/g/n
NFC	2.4GHz band Yes

\* USB hard disks with a capacity of 32 GB or less, or more than 2 TB, cannot be used.

## Wearable Camera Specifications (NTSC / PAL)

SENSOR SECTION		HX-A500
Image Sensor		1/2.3-type BSI MOS Sensor (For Europe), 1/2.3" BSI MOS Sensor (For North America / Asia)
Total Pixels		12.76 megapixels
Effective Pixels		9.03 megapixels [16:9] [Normal Shooting mode, 1920 x 1080 30p (For NTSC)/1920 x 1080 25p (For PAL), Angle of view: Wide]
		8.34 megapixels [16:9] [Picture Recording Mode, Angle of view: Wide]
LENS SECTION		
F Value		F2.8
Focal Length		3.4mm
Angle of View		Approx. 160° [Normal Shooting mode, 1920 x 1080 30p (For NTSC)/1920 x 1080 25p (For PAL), Angle of view: Wide]
Minimum Focus Distance		Approx. 50 cm
Lens Brand		Panasonic Lens
CAMERA SECTION		
Standard Illumination		1400 lx
Minimum Illumination		6 lx, 1 lx (Color Night Rec.)
Focus		Fixed
White Balance		Auto / Indoor1 / Indoor2 / Sunny / Cloudy / White set
Image Stabilizer		Image Stabilizer, Level Shot Function
Shutter Speed		1/30 — 1/12000 (for NTSC), 1/25 — 1/12000 (for PAL)
RECORDING SECTION		
Recording Media		micro SD / micro SDHC
Recording Format		MPEG-4 AVC file format compliant (.MP4), Video Recording System MPEG-4 AVC/H.264
Recording/Playback Mode		Normal Shooting Mode 3840 x 2160 30p/25p (Max. 72Mbps/VBR) 1920 x 1080 60p/50p (Max. 28Mbps/VBR) 1920 x 1080 30p/25p (Average 15Mbps/VBR) 1280 x 720 60p/50p (Average 15Mbps/VBR) 1280 x 720 30p/25p (Average 9Mbps/VBR) 848 x 480 30p/25p (Average 4.5Mbps/VBR)
		Slow Motion Mode (30p/25p) 1920 x 1080 60fps/50fps (Average 15Mbps/VBR) 1280 x 720 120fps/100fps (Average 9Mbps/VBR) 848 x 480 240fps/200fps (Average 4.5Mbps/VBR)
Audio Recording System		AAC
Microphone		Monaural
Speaker		Dynamic type
STILL IMAGE SECTION		
Recording Format		JPEG [DCF/Exif2.2]
Recording Image Size		[16:9] 16.3 megapixels (5376 x 3024), 8.3 megapixels (3840 x 2160), 5.3 megapixels (3072 x 1728)
Intermittent Recording		Yes (3 sec, 5 sec, 10 sec, 30 sec, 60 sec)

SYSTEM SECTION		
Power Supply		3.7V (Battery) / 5.0V (Portable Power Supply**)
Power Consumption		Recording NTSC: Max. 4.5W, PAL: Max. 4.3W Charging 5.3W (Portable Power Supply**), 2.3W (PC) Without SD Card [Camera] Approx. 31g (0.069lb), [Body] Approx. 128g (0.282lb) With SD Card [Camera, Body and Cable] Approx. 185g (0.408lb)
Weight		[Camera] Approx. Ø26.5 x 68.5 x — mm (1.04 x 2.70 x — inch) [Body] Approx. 59.5 x 94 x 26.7 mm (2.34 x 3.70 x 1.05 inch)
Dimensions (W x H x D)		1.5" Wide LCD monitor (115,200 dots) (For North America / Asia) 3.7 cm (1.5") Wide LCD monitor (115,200 dots) (For Europe)
LCD Monitor		USB 2.0 Hi-Speed
Interface		Built-in Rechargeable Battery (1450mAh / Lithium-polymer), USB Cable, HD Writer WE2.0 (Download), Head Mount, Headband, Armband Case
Standard Accessories		
Wi-Fi		
Standard Frequency		IEEE 802.11b/g/n 2.4 GHz band
OTHERS		
Tough Design		Waterproof Dustproof 3.0 m/10 ft (IPX8 compliant) Yes (IP5X compliant)

\*\* Portable Power Supply availability depends on the sales area.

• Weight and dimensions shown are approximate. • Design, functions, and specifications are subject to change without notice. • All monitor and TV pictures are simulated. • Waterproof and Dustproof: The HX-A500 has IP5X dustproof rating. Meeting IPX8 rating, the HX-A500 is waterproof at 3.0 m (10 ft), for 30 min. Ratings do not guarantee effective protection in all conditions, and constitute no warranty against damage or equipment malfunction. • 1 GB = 1 billion bytes.
